STARKLY VERSE.

If Mary goes far out to sea,  
By wayward breezes fanned,  
I'd like to know—can you tell me—  
Just where would Maryland?

Tenny went high up in air  
And looked o'er land and sea,  
Looked here and there and everywhere,  
Pray, what would Tennessee?

I looked out of the window and  
Saw Ory on the lawn;  
He's not there now, and who can tell  
Just where has Oregon?

Two girls were quarrelling one day  
With garden tools, and so  
I said, "My dears, let Mary take  
And just let Idaho."

A friend of mine lived in a flat  
With half a dozen boys;  
When he felt ill I asked him why?  
He said: "I'm Illinois."

An English lady had a steed,  
She called him "Highland Flay."  
She rode for exercise, and thus  
Rhode Island every day.

## NEW YORK CAPITALISTS TURN DOWN THE BURLEY TOBACCO GROWERS

See Too Many Points of Weakness in Their Plan to Advance the Money Needed

"Efforts of a committee representing the Kentucky Burley Tobacco Growers' Company to raise \$7,000,000 or \$8,000,000 of capital in New York City for the purpose of warehousing the bulk of the existing stock of Burley tobacco for a certain time have as yet met with no definite success," says The New York Commercial. "In fact," continues The Commercial, "the plan did not commend itself to the New York bankers and Trust Company officials to whom it was presented last week. It was learned yesterday that the negotiations with a Trust Company of this city on which the tobacco growers of Kentucky, Indiana and Ohio had based high hopes of success had been definitely declared off. As far as has been learned so far negotiations in any other quarter have been taken up."

"The plan of the Kentucky tobacco growers was to get under option practically all of the available market supply of Burley Tobacco to place the tobacco in warehouses and to hold it for a considerably higher price than is usually realized. Representatives of the organization recently in this city stated that they already had under option 70,000,000 pounds of Burley tobacco at ten cents a pound. To these have since been added, according to the press of Cincinnati and Lexington, options on upward of 10,000,000 more, so that the Burley Tobacco Growers' Company would expect to handle not less than 80,000,000 pounds, at a total cost of \$8,000,000."

"Many of the Southern tobacco growers are of the opinion that the refusal of New York financiers to loan the money after having apparently received the plan with favor, was due to influence brought to bear on them by the American Tobacco Company, the largest single purchaser of Burley tobacco in the country. New York interests, on the other hand, assert

Some time ago Charley Mitchell, in tearing down a rear wall in the old Calhoun building in Wall street, found hidden near the top of the wall a vicious looking dagger. It is possible if the terror-striking weapon could talk it would unfold gruesome mystery. Mr. Mitchell gave it to Mayor Stalcup, who has placed it alongside other ancient and historic relics in the Maysville and Mason County Library.

#### NEARER SHORE

Another Ice Pier Needed to Make Boats More Secure

The ice pier, even though ten feet higher as now arranged, would not have prevented the disaster which befell the boats here Saturday when the ice let go.

In the construction of the piers there should have been four instead of three.

When the river is at its present stage the distance from the inside pier to the shore is so great that it permits the ice to pass through unobstructed.

That's what played the mischief with the Big Kanawha. Instead of shearing the ice out in the stream and passing on the outside of the outer pier, the wide channel on the inside permitted it to pass through and strike the Big Kanawha with such force as to snap her lines and carry her down onto the wharfboat and Laurence, where, after doing much damage to herself as well as to the Laurence and wharfboat, she hung fast.

Now that Congress has allowed an additional appropriation of \$20,000, the greater part of this sum should be used in building another pier nearer the shore.

Unless this be done it will be simply a waste of money and will not afford the protection to river craft that the Government intends.

Captain C. M. Phister is the proper person to enlighten Government officials what is needed in the premises.

As it now stands, he has sustained a loss of thousands of dollars that would not have occurred had there four instead of three ice piers.

# In Consideration

Of the bad weather last week which virtually imprisoned many women, we will continue our Linen Sale throughout this week and as a mid-sale stimulus we offer

**\$1.50 Napkins for \$1.19 a Dozen.**

Comparison is a test as safe as the alchemist's crucible. Because we say these are \$1.50 values we do not ask you to accept the statement without proof. A realization of this unusual bargain is to our interest as well as yours.

These Napkins cost the jobber \$1 a dozen in Ireland, their birthplace, he sold to us at a minimum of profit as the "amende honorable" for an unfilled promise regarding another line of linens, we sell to you at a shaving over cost to advertise our Linen Sale and to ratify its claim of unusual values.

For comparison to any stock, ours included, take the napkins between \$1.19 to \$1.50. Then form your own conclusions. Even the inexperienced linen judge will instantly detect the superiority of these \$1.19 Napkins to the regular \$1.25 and \$1.39 grades and their equality in every detail to the best \$1.50 Napkins on the market.

They cost no more than the linen samples you use for Napkins and for which you pay 10c each or \$1.20 a dozen and they have the greater elegance of a finished Napkin.

Don't you think this bargain merits inquiry?

ONE of the ways in which Louisville is being advertised just now is the libel suit against The Evening Post and Editor Knorr for exposing a prominent ward healer who kept a combined saloon, gambling den and assignation house.

I WONDER if people who continually buy goods away from home ever think of the injurious practice. They are helping to kill the town in which they live by destroying its business and lowering the price of its real estate and driving out its population. Enough people engaged in this business will depopulate any town in a short time.

THE man without enemies is generally without friends.

The Legislature has done the proper thing in providing a decent site for the decent Capitol which Kentucky is to have; but it might just as well have done the job in ten days instead of nearly thirty.

It was given out that Mason county growers had assigned about 6,000,000 pounds of 1904 tobacco to the Burley Trust; but the growers report to Assessor Hawes only 2,378,000 pounds raised in the county. There appears to be a corkscrew loose somewhere. Really, however, this is an important matter. Mason county is one of the leading tobacco-producing counties, with crops aggregating probably 7,000,000 pounds annually; but the Mason county man abroad, when boasting of this fact, will be at a disadvantage if some fellow confronts him with the Assessor's statistics showing a production of less than 3,000,000 pounds. This shows the importance of giving correct figures to the Assessor.

#### UNHEARD-OF ACCIDENT

Second No. 4 on C. and O. Had Narrow Escape of Being Wrecked

Saturday morning about 1 o'clock there came near being a wholesale slaughter of people at Higginsport on the C. and O.

The big engine of second section of train No. 4, in coming through Augusta, picked a large two-inch oak plank from one of the numerous crossings there, which became wedged into one of the trucks on the tank, and while the train was running at a high rate of speed through Higginsport the plank caused the rear truck of the tank to become loose, and it ran out to the South side of the train, tearing the steps off the entire train on that side, knocking a hole in the combination car and frightening the passengers almost to death, but injuring no one.

It was fortunate that the truck did not go under the train, as it would have undoubtedly caused one of the worst wrecks in the history of the C. and O.

The train was delayed about eight hours.

#### SECOND SUNDAY

Of the Union Evangelist's Services the Greatest of All

Yesterday was floodtide in the revival services—a day long to be remembered in the religious circles of Maysville. The people seemed to have but one impulse, and despite the inclement weather they braved the storm of rain and snow and icy pavements to listen to God's holy word.

It was an inspiring sight to witness the march of the Sunday-school army, commanded by the Superintendents and teachers of the various Churches, winding their way to the Baptist Church at 9:45 a. m., where they filled the main part of the Church. Dr. Ely gave them an inspiring talk. Their faces lit up with delight and their hearts glowed with joy. Prof. Pearman caught their rapt attention with his gospel songs. A large number signified their intention of giving their hearts to Jesus.

The afternoon meetings were well attended and results for good were manifest. The men's meeting at the Courthouse was one of the largest of its character ever held in Maysville.

There is one thing about Dr. Ely which cannot be said about all Evangelists—he is clean. No slang, smutty stories pass his lips. Nothing is said in these set-apart meetings of the different sexes that could not be said if both were present without causing a blush to mantle cheek or brow. The men will never forget the address on "That Tongue," and some 25 or 30 marched to the front and took the Evangelist by the hand, saying they dedicated their heart and tongue to God.

The climax came at the evening service. The song service was ringing and clear. It seemed, as the great volume of melody went up from the lips and hearts of the chorus and congregation, that the gates of heaven had opened, and they had caught a strain of the heavenly choir. The house was packed, men being very prominent in the audience.

Dr. Ely preached from these words: "Many that are first shall be last and the last shall be first." He said there were only three kinds of people in the world.

First—Those that can be hired to do anything, that is, anything that is good. Many were here enough to hire themselves out to do evil and were getting very poor pay. People wanted to know what they can get out of a thing before they invest. You can fill every Church in this town with men tomorrow at 7 o'clock if you pay them for coming. It is better

to do that than to preach to empty benches. A man will come and look pious for an hour and a half, if there is anything in it for him. This mercenary spirit has got a grip on the Church. We have to pay the singers, the musicians, and in some places the Superintendents and teachers in the Sunday-school. They won't work unless there is something in it for them.

Second—The people of sincere motives.—Men filled with a heart's devotion for Jesus Christ, ready to give, not to receive, making sacrifice for the cause.

Third—The people who "go." They do not debate, do not stop to consider how much they will get. The reward is left in the hands of Christ, in whom they have the utmost confidence. That should be the keynote of every life, "Go," and leave the result with God. Do your duty, irrespective of a reward.

An earnest plea was made for men to decide for Christ while Prof. Pearman sang "I'll Go Where You Want Me to Go."

Tuesday will be an all-day's meeting and the success of this depends very largely on the merchants and factories closing their places of business from 2:30 to 4 o'clock and at 6:30. Surely you can afford to close these few hours, once in a lifetime perhaps, out of respect to the revival, and in honor to God. Suppose we all do it, whether we believe in it or not.

Mr. and Mrs. John L. Shuff of Cincinnati are enjoying a trip to Florida with a party of friends.

Congressman-elect J. B. Bennett has forwarded his resignation as County Judge to Governor Beckham, to take effect March 1st, 1905.

#### ATTENTION, EVERYBODY!

Every One Should Assist in the Coming Tobacco Fair

The Sixth Annual Tobacco Fair will be held in Maysville Wednesday, February 22d, Washington's Birthday.

Every farmer in Kentucky and Ohio who raises tobacco, corn, wheat or potatoes, should be present and make an exhibit on that occasion. The Maysville Tobacco Fair has done more to favorably advertise the Burley Tobacco producing section of Kentucky and Ohio than anything else that has ever been inaugurated. It should be the pride of every citizen to make the one this year a greater success and a greater benefit to the farmers than any previous Fair.

Good music, short spicy speeches and about \$300 in gold to be distributed will be features of the day.

Excursion rates will be given on all railroads, and a train leaving Maysville at 5:30 on the L. and N. that afternoon. Let everybody come.

## What is a Backache?

IT IS NATURE'S WARNING TO WOMEN

Diseases of Woman's Organism Cured and  
Consequent Pain Stopped by Lydia E.  
Pinkham's Vegetable Compound

"It seems as though my back would break." Women utter these words over and over again, but continue to drag along and suffer with aches in the small of the back, pain low down in the side, "bearing down" pains, nervousness and no ambition for any task.

Mrs. Elizabeth H. Thompson

They do not realize that the back is the mainspring of woman's organism, and quickly indicates by aching a diseased condition of the womb or kidneys, and that the aches and pains will continue until the cause is removed.

Lydia E. Pinkham's Vegetable Compound for twenty years has been the one and only effective remedy in such cases. It speedily cures all womb and kidney disorders and restores the female organs to a healthy condition.

Here is one case among thousands: "I consider Lydia E. Pinkham's Vegetable Compound the most wonderful remedy in the world for sick women. For a long time I suffered with a severe backache and bearing-down pains; in fact, I had womb trouble. Reading of the remarkable cures your Compound had made I decided to try it, and I am happy to say that it not only cured me entirely of all my troubles but made me a strong, well woman."—Mrs. Elizabeth H. Thompson, Lily Dale, N. Y.

No other medicine holds such a record of cures of female ills as does Lydia E. Pinkham's Vegetable Compound. No other person can give such helpful advice to women who are sick as can Mrs. Pinkham, for none have had such a great experience. Her address is Lynn, Mass., and her advice free.

## Paine's Celery Compound

Makes Nerve Force

Nerve Force rules the world.

Health—the satisfaction of living,—is the right of every man and woman born into the world.

Health is a question of keeping all the organs of the body working together in fine, smooth, harmony.

The force that rules them all—that makes them work as nature meant and makes them keep in harmony—is Nerve Force.

Without Nerve Force there can be no health at all—no success—no joy in living.

The center of life is in the nerves. The real root of health or sickness is found in the condition of the nerves.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

This is the work of Paine's Celery Compound. It is the most celebrated nerve vitalizer and tonic in the world.

We give the testimony of many individual cases, simply that you may know their experience in their own words.

"I am a man of more than 60 years, and for the past 20 years I was a great sufferer with acute stomach trouble and rheumatism. I tried a number of specialists, but their efforts were unavailing and I felt as though life was not worth living, and I had given up all hope of being a well man again. My wife, who also had stomach trouble, at the suggestion of a friend, tried two bottles of Paine's Celery Compound and was fully restored to health. She then encouraged me to try the same medicine; I did so, and now I am a sound and well man, able to work every day. I bless my good wife every day for my good health, as she got me to take Paine's Celery Compound, in my opinion the greatest medicine ever given to the world for nervousness, stomach trouble, rheumatism and kindred ailments. Yours very truly,"—Martin Baldwin, 610 North 10th St., St. Joseph, Mo. Feb. 25, 1904.

Doctors know and value this prescription and make constant use of it in their practice.

Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once.

The patient feels this at once and gains confidence by it.

The Nerve Force begins at once to make each organ of the body do the work that nature expects of it.

Two days' treatment with Paine's Celery Compound will prove its marvelous power.

Remember this,—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University, and all reputable druggists sell and recommend it.

Rev. W. H. Crain, Pastor of the M. E. Church, and Rev. Ecklar, Pastor of the M. E. Church, South, both of Sardis, assisted by Rev. Clark, a few days since closed a most successful union revival resulting in 70 conversions, 10 sanctifications and 40 additions to the Churches. Sardis and the surrounding community was stirred as never before for years. Rev. Harris of Mt. Olivet was a frequent visitor and rendered assistance. It was a never-to-be-forgotten time of rejoicing and the Sardis charges are proud of their Pastors who have labored so faithfully. A warm welcome will ever be extended to Brother Clark. **"There Isn't One Really Good Printer in Five Hundred."**

Printers' Ink—the leading journal on publicity of all kinds—has the following to say: "There are thousands of printers in this country, good, indifferent, and a lot of bad ones. There isn't one really good printer in five hundred. Intelligent advertisers are willing to pay for good printing, no matter where it comes from."

Printers' Ink knows what it is talking about. Poor printing is a bad investment—it's worse than a blank. A business man's stationery or booklet is like a traveling man—if it's neat, well-dressed, and to the point, the first impression is good and your chances of doing business on the strength of it are good.

We realize this. We know almost of the times. We know what good printing is and produce it. We are pretty careful not to let a bum job get into our presses. No press in the country can better our printing and we want you to know it.
